Hitz AdventuresSM

From Our Founder

Dear Adventure Seeker,

We are a new concept in group travel.

Hitz Adventures sends groups of people to locations across the country to participate in private cattle drives, skydiving, fishing and white-water rafting trips. What separates us from the typical travel agent and outfitter is that we not only handle all the lodging, transportation, food and adventure, but also provide local knowledge and convenience for over 50 locations. Everywhere from San Diego CA, Ft. Collins CO, Traverse City MI and Boston MA.

Our customers include alumni groups, fraternal organizations, bachelor(ette) parties, church groups, family reunions, company teambuilding events and weekend getaways.

We have personally been to each location and researched all the restaurants, outfitters and lodging to determine which offer the best combination of local flavor and quality service. We provide personalized maps of all the locations they will be visiting and cheat sheets of the night spots.

We offer convenience. Other tours last seven to ten days, while our trips last from Friday to Sunday and are more moderately priced. There is no time off work and no planning six months in advance. Customers select a package trip, customize it and we set up a trip web page where people can log on and buy a seat. No need to collect checks and pool money. And the best part is that this is not a cattle call where you are mixed in with groups of people on a tour bus. We average twenty people and will go with as few as six.

We are not a travel agency, we have preselected locations that allow us to guarantee a quality experience. We are not outfitters because we also handle all logistics of the experience and work on a national scale. We are Hitz Adventures, your Adventure Travel Planner.

Visit us at hitzadventures.com and let us help you create memories to last a lifetime.

Sincerely,

Darren Hitz
